

February 2023 Robotics Investments

COMPANY	AMOUNT	TYPE	COUNTRY	TECH, PROD & SERVICES	DESCRIPTION
AirGo	\$2,700,000	Seed	Oman	Operator Services - Drones, Data Acquisition / Processing / Management	AirGo offers drone operations services.
Aniai	\$3,000,000	Seed	USA	Other Commercial	Aniai has developed a robotic kitchen for quick service restaurants.
Aptronik	\$10,000,000	Other	USA	Humanoids / Bipedes	Aptronik builds and designs humanoid robotics systems.
Ascento	\$162,543	Grant	Switzerland	Indoor Mobile Platforms, Outdoor Mobile Platforms	Ascento offers a two-wheeled jumping robot designed for mixed environments.
Asylon	Estimate	Series A	USA	Quadrupeds, Outdoor Mobile Platforms	Asylon provides perimeter security solutions using quadrupedal robots and drones.
Aurigo International	\$867,136	Grant	UK	Outdoor Mobile Platforms, Autonomous Transportation Systems (Auto, Truck, Monorail etc.)	Aurigo offers self-driving autonomous vehicles for airport baggage cargo handling and passenger vehicles
CaPow	\$7,500,000	Seed	Israel	Power Supplies	CaPow offers a solution that provides continuous power to automated robotics fleets.
Deus Robotics	\$1,500,000	Seed	Ukraine	Indoor Mobile Platforms	Deus Robotics produces mobile robotics solutions for logistics operations.
DRONAMICS	\$40,000,000	Seed	UK	Drones, Networking / Connectivity, Sensors / Sensing Systems	DRONAMICS provides unmanned aerial systems for commercial shipping and special cargo applications.
Fly X Aerospace	\$20,542	Seed	India	Drones, Operator Services - Drones, Data Acquisition / Processing / Management	Fly-x Aerospace provides design, development and customization solutions for Unmanned Aerial Vehicles (UAVs).
Fortem Technologies	\$17,800,000	Other	USA	Drones, Networking / Connectivity, Sensors / Sensing Systems	Fortem Technologies provides airspace awareness, security, and defense solutions for detecting and defeating dangerous drones using distributed radar and autonomous drone capture.
Fulfill Solutions	\$60,000,000	Series B	USA	Indoor Mobile Platforms, Software	Fulfill provides a robotic automation solution for grocery store and other retail e-commerce firms.
Garuda Aerospace	\$22,000,000	Series A	India	Drones, Operator Services - Drones	Garuda Aerospace develops unmanned aerial vehicles and drones for the defense and aerospace sectors.
Huanzhi Technology	\$4,405,631	Other	China	Forklift AGVs, Indoor Mobile Platforms	Huanzhi Technology offers integrated logistical solutions such as robots and unmanned control systems for industrial and dispatch vehicles.
i-KINGTEC	Estimate	Series C	China	Drones, Drones, Data Acquisition / Processing / Management	i-KINGTEC is a developer of intelligent industrial drone and UAV systems.
Indrones	\$847,475	Other	India	Drones, Operator Services - Drones, Software	Indrones provides high-resolution data services solutions using drones for applications across many industries.
IVEX	\$2,442,238	Seed	Belgium	Software, Sensors / Sensing Systems	IVEX develops safety co-pilot technologies for autonomous cars.
Kinetic Technologies	\$175,000	Other	USA	Other Industrial	Kinetic Technologies is an engineering design and build firm that offers the RT1, a robot-controlled rotary table designed to maximize welding productivity.
Kiwibot	\$10,000,000	Other	USA	Outdoor Mobile Platforms	Kiwibot designs and manufactures a fleet of mobile robots used for food delivery on college campuses.
Linebird	\$75,000	Grant	USA	Drones, Other, Data Acquisition / Processing / Management	Linebird provides drone-based automation solutions for utilities.
Muniu Technology	\$14,361,213	Series C	China	Sensors / Sensing Systems	Muniu Technology is a provider of millimeter-wave radar intelligent system solutions for autonomous driving, smart transportation, and intelligent IoT.
Nanoflex Robotics	\$12,000,000	Series A	Switzerland	Surgical / Interventional Systems	Nanoflex Robotics, a spin-off from ETH Zurich, provides advancing robotic technologies for surgical interventions for the treatment of ischemic stroke.
Oinride Oy	\$16,208	Pre-Seed	Finland	Outdoor Mobile Platforms, Software	Oinride Oy offers intelligent robots for operation in hazardous environments.
Orthopus	\$2,180,929	Seed	France	Rehabilitation / Therapeutic Systems	Orthopus produces robotic assistive devices for arm mobility.
Passion Intelligence	Estimate	Series B	China	Indoor Mobile Platforms, Automated Guide Vehicles	Passion Intelligence is a provider of automated robotic solutions and services for warehousing, logistics, and manufacturing processes.
PuduTech	\$15,000,000	Series C	China	Indoor Mobile Platforms	PuduTech offers autonomous delivery robots for the home care, food service, and catering industries.
Skydio	\$230,000,000	Series E	USA	Drones, Software, Sensors / Sensing Systems	Skydio produces drone and enabling technologies that are used by consumer, enterprise, and government customers.
sliQue Robotics	Estimate	Seed	USA	Indoor Mobile Platforms	sliQue Robotics develops mobile robots and other technologies for various commercial sectors.
SwamFam Robotics	\$8,384,636	Series A	Australia	Outdoor Mobile Platforms	ADAMA offers robotics platforms for efficient and sustainable agriculture.
TETRA ELC	Estimate	Series B	China	Indoor Mobile Platforms, Outdoor Mobile Platforms	TETRA ELC is a manufacturer of robotic equipment that provides robotics sensing, operation and maintenance solutions for the energy industry.
ThayerMahan	\$30,549,982	Other	USA	Unmanned Underwater Vehicles, Unmanned Surface Vehicles	ThayerMahan is a provider of marine robotic solutions for the government and industry.
Third Wave Automation	\$15,000,000	Other	USA	Sensors / Sensing Systems, Controllers	Third Wave Automation offers a controls and sensor package that can retrofit existing fork trucks making them autonomous or controlled remotely.
Toggle Robotics	\$3,000,000	Series A	USA	Articulated Robots, Software	Toggle Robotics uses robotics hardware, software, and services to automate the pre-assembly of construction materials.
ZD Medtech	\$14,592,149	Series B	China	Rehabilitation / Therapeutic Systems	ZD Medtech is a company specializing in the development and application of intelligent rehabilitation robots.
Zeabuz	\$1,947,089	Other	Norway	Unmanned Surface Vehicles, Operator Services - USVs	Zeabuz offers autonomy-as-a-service platform to urban ferry operators.
Zeitview (formerly DroneBase)	\$55,000,000	Series E	USA	Drones, Operator Services - Drones, Data Acquisition / Processing / Management	Zeitview is a data analytics provider that via aerial drone services.
