

September 2023 Robotics Investments					
Company Name	Amount	Type	Country	Tech-Prod-Services	Description
AeroVironment	\$109,007,119	Other	USA	Drones	AeroVironment specializes in unmanned aircraft systems and electric vehicle charging solutions.
Agora Robotics	Estimate	Pre-Seed	Romania	Indoor Mobile Robots	Agora Robotics provides easy to use, autonomous mobile robots.
AIS Field	Estimate	Seed	Turkey	Unmanned Underwater Vehicles, Other Industrial Systems	AIS Field provides a range of robotic inspection and maintenance services for the oil and gas, energy and power generation industries.
Anqing Technology	Estimate	Other	China	Software	Anqing Technology is a provider of UAV traffic management services and equipment, as well as safe autonomous flight technology.
Ascento	\$4,300,000	Pre-Seed	Switzerland	Outdoor Mobile Robots	Ascento produces a compact and agile jumping robot designed for mixed environments.
Aurigo International	\$901,000	Other	United Kingdom	Indoor Mobile Robots, Outdoor Mobile Robots, Autonomous Transportation Systems	Aurigo develops autonomous vehicles for airport baggage/cargo handling, security/patrol and passenger movements.
AutoCore	Estimate	Series B	China	Software	AutoCore is a provider of intelligent mobility software, automotive electrical, and electronic architecture solutions.
Benmo Technology (Direct Drive Tech)	Estimate	Series A	China	Actuators / Motors / Servos	Benmo Technology offers direct-drive power solutions to providers of robotics systems, exercise equipment, and other products.
Blue Ocean Robot	\$13,704,262	Series C	China	Indoor Mobile Robots, Autonomous Forklifts	Blue Ocean Robot is a provider of autonomus mobile robots and management systems.
Boxbot	\$12,000,000	Series A	USA	Automated Storage & Retrieval Systems	Boxbot provides storage and retrieval system that adapts to varying cubic dimensions.
Calvo	\$1,634,079	Other	City of	Sensors/Sensing Systems	Calvo is developing 3-D ultrasound sensor technology for use in highly automated vehicles and platforms.
Cambrian Intelligence	\$2,999,998	Other	United Kingdom	Sensors/Sensing Systems, Video/Vision/Imaging	Cambrian Intelligence offers visioning technology for robotics systems.
Changguangxi Intelligent Manufacturing	\$13,705,013	Series A	China	Collaborative Robots, Articulated Robots	Changguangxi Intelligent Manufacturing focuses on the design and manufacturing of robots, intelligent motion technologies, and other items.
CMR Surgical	\$163,948,774	Series D	United Kingdom	Surgical/Interventional Systems	CMR Surgical develops a surgical robotic system for minimal access surgery.
Deveron UAS	\$1,486,712	Other	Canada	Operator Services - Drones, Data Acquisition/Processing/Management	Deveron UAS is a one-stop full-service UAS company that uses data produced by imagery and software analytics.
Diamon Robotics (Daimeng Robot)	Estimate	Other	China	Humanoids/Bipeds	Daimeng Robot is creating a series of general-purpose humanoid robots.
Dilberg (DareRobot)	Estimate	Other	China	Articulated Robots	Dilberg (DareRobot) provides robotics systems for heavy industrial manufacturing operations.
Diligent Robotics	\$25,000,000	Other	USA	Humanoids/Bipeds	Diligent Robotics develops humanoid robot assistants for work in the heathcare sector.
Driveblocks	\$2,355,586	Seed	Germany	Software	Driveblocks offers a mapless autonomy platform that enables heavy duty vehicles to detect objects and perceive their surrounding without relying on high-definition maps.
Eyebot	\$1,000,000	Pre-Seed	USA	Other Commercial Systems	Eyebot is developing rapid vision exam technologies for eyeglass.
FERNRIDE	\$19,000,000	Series A	Germany	Autonomous Transportation Systems	FERNRIDE provides autonomous, electric trucking solutions.
Flygldi ehf	\$2,200,000	Seed	Iceland	Drones	Silent Flyer offers a flapping-wing bird-like drone with wings that can morph their shape during flight and fold into the body.
GL INS	Estimate	Seed	South Korea	Articulated Robots, Collaborative Robots	GL INS is a company specializing in the development of industrial robots, industrial modules and automation facilities.
Gongong Robot	Estimate	Other	China	Indoor Mobile Robots, Exoskeletons	Gongong Robot is a manufacturer of robotics solutions for the construction sector.
Hong Jing Drive	\$13,755,536	Series B	China	Microcontrollers/Microprocessors/SoC, Software, Sensors/Sensing Systems	Hong Jing Drive provides a computing platform for autonomous driving vehicles.
insideFPV	\$422,289	Seed	India	Drones	insideFPV provides customized ready to fly First Person View (FPV) drones.
Kodiak Robotics	\$75,000,000	Other	USA	Software, Sensors/Sensing Systems	Kodiak Robotics develops autonomous technology for long-haul trucking.
Loop Technology	Estimate	Seed	United Kingdom	Consulting/Engineering, Articulated Robots, Sensors/Sensing Systems	Loop Technology provides industrial automation products and services.
Miso Robotics	\$551,384	Other	USA	Articulated Robots, Sensors/Sensing Systems	Miso Robotics provides robotics and intelligent automation solutions to the commercial food service industry.
Monumental Labs	Estimate	Seed	USA	Articulated Robots, Sensors/Sensing Systems, Software	Monumental Labs is building AI-enabled robotic stone carving factories.
Mujin	\$85,000,000	Series C	Japan	Articulated Robots, Controllers, Sensors/Sensing Systems	Mujin offers automation solutions and industrial robots to for factory and logistics operations.
NakAI Robotics	Estimate	Seed	Israel	Unmanned Underwater Vehicles	NakAI Robotics offers an underwater robot that cleans ships' hulls while the vessel is in motion.
Nauticus Robotics	\$20,000,000	Other	USA	Unmanned Underwater Vehicles, Consulting/Engineering	Nauticus Robotics provides unmaned underwater vehicles and engineering services.
OnSight	Estimate	Seed	USA	Outdoor Mobile Robots	OnSight produces an autonomous and teleoperated unmanned ground vehicle (UGV) that detects, reports, and observes issues and anomalies on solar farms.
Perceptual Robotics	Estimate	Other	City of	Drones, Operator Services - Drones, Data Acquisition/Processing/Management	Perceptual Robotics provides intelligent automation solutions based on unmanned aerial systems for wind turbine and other infrastructure inspection.
Puncture Robotic	\$13,618,412	Series A	China	Surgical/Interventional Systems	Puncture Robotic develops venipuncture robots that help in conducting blood collection without human intervention.
Q-Bot	\$4,371,366	Other	United Kingdom	Indoor Mobile Robots	Q-Bot produces mobile robots that spray insulation under floors.
REEV	\$3,190,508	Seed	France	Prosthetic/Orthotic Systems, Rehabilitation/Therapeutic Systems, Exoskeletons	REEV provides lightweight and intelligent wearable robotic orthoses providing knee assistance while walking, sitting, standing and climbing stairs.
Robocon	\$11,000,000	Other	South Korea	Articulated Robots	Robocon is a developer of robotics and automation equipment designed for the production of rebar for the construction and steel industries.
Shield AI	\$150,000,000	Other	USA	Drones, Software	Shield AI offers an AI pilot for aircraft and autonomus aenal vehicles.
silana	Estimate	Seed	Austria	Articulated Robots, Video/Vision/Imaging	silana is developing robotics and other technologies that automate manual sewing processes.
Sojo Industries	\$2,800,000	Seed	USA	Articulated Robots, System Integration/Programming	Sojo Industries develops robotic assembly and packaging solutions for the food and beverage industries.
Square Robot	\$5,000,000	Other	USA	Unmanned Underwater Vehicles	Square Robot builds robotic systems for submerged oil and gas inspections in above ground storage tanks.
Stack AV	\$1,000,000,000	Other	USA	Software, Sensors/Sensing Systems, Microcontrollers/Microprocessors/SoC	Stack AV develops advanced autonomous systems technologies for the trucking industry.
Tethys Robotics	\$164,445	Other	Switzerland	Unmanned Underwater Vehicles	Tethys Robotics develops underwater drones that enable underwater search & recovery to inspection & surveillance.
Treeswift	\$10,811,986	Other	USA	Drones, Data Acquisition/Processing/Management	Treeswift utilizes robotics and machine learning for forestry applications.
UnitX	Estimate	Other	USA	Sensors/Sensing Systems, Video/Vision/Imaging, Software	UnitX provides AI-powered machine vision solutions for the manufacturing industry.
Virtual Incision	\$30,000,000	Series C	USA	Surgical/Interventional Systems	Virtual Incision develops a miniaturized surgical robotic support device for colon resection.
Waste Robotics	\$7,308,199	Other	Canada	Video/Vision/Imaging, Sensors/Sensing Systems, Arms/Manipulators	Waste Robotics designs and delivers intelligent robots for use in recycling centres.
Zhuji Dynamics	\$120,000	Pre-Seed	China	Quadrupeds, Humanoids/Bipeds	Zhuji Dynamics offers leggd robotics systems.
