

November 2023 Robotics Investments

Company Name	Amount	Type	Country	Tech-Prod-Services	Description
4AG Robotics	\$12,787,976	Series A	Canada	Other Industrial	4AG has developed fully autonomous, vision-guided robots designed to operate in mushroom-growing racks and pick, trim, clean, and pack them
Aether Biomedical	\$5,800,000	Series A	Poland	Prosthetic / Orthotic Systems	Aether Biomedical is a rehabilitation robotics startup focused on building bionic limbs for upper limb amputees
Augmentus	\$5,725,000	Series A	Singapore	Software	Augmentus offers a computer vision and AI robot motion planning solution.
Aurigo International plc	\$5,120,404	Other	UK	Outdoor Mobile Platforms, Autonomous Transportation Systems	Aurigo offers self-driving autonomous vehicles for airport baggage cargo handling and passenger vehicles.
AVIC Creative Robotics	\$14,093,638	Series B	China	Exoskeletons, Rehabilitation / Therapeutic Systems, Indoor Mobile Platforms	AVICSpecializes in artificial intelligence and service robots, including exoskeleton systems.
Avitt Intelligence	Estimate	Seed	China	Collaborative Robots	Avitt Intelligence is a supplier of integrated collaborative robotics technologies for manufacturing.
BeeX	\$2,000,000	Other	Singapore	Unmanned Underwater Vehicles, Operator Services - UUVs	BeeX offers hover-capable, autonomous underwater vehicles as a service.
Benewake	\$13,867,509	Other	China	Sensors / Sensing Systems	Benewake is focused on the R&D and manufacturing of LiDAR technologies for a variety of applications.
Crover	\$500,000	Other	UK	Indoor Mobile Platforms	Crover offers an autonomous, robotic grain storage monitoring solution for grain merchants and co-operatives
Eacon Mining	\$55,470,039	Series C	China	Autonomous Transportation Systems	Eacon Mining is a provider of autonomous haulage solutions for operations at surface mines.
EAVISION	\$13,808,340	Other	China	Drones	EAVISION focuses on the research and development of drones for various applications, including agriculture.
EVAS Intelligence	\$13,787,208	Seed	China	Microcontrollers / Microprocessors / SoC	EVAS Intelligence is an autonomous driving chip startup.
General Autonomy	\$3,000,000	Seed	India	Collaborative Robots	General Autonomy is developing AI powered robots for use in the manufacturing sector.
Ghost Autonomy	\$5,000,000	Series E	USA	Software	Ghost provides AI software solution that enables attention-free driving.
GITAI	\$47,566,412	Other	Japan	Articulated Robots, Outdoor Mobile Platforms	GITAI develops remote controlled robots to support astronaut's operations in commercial space stations.
Gosion Robot	Estimate	Seed	China	Gantry Robots, Indoor Mobile Platforms	Guoxun Robot develops industrial safety inspection robots.
Grayscale AI	\$109,118	Other	USA	Software, Sensors / Sensing Systems, Software	Grayscale AI provides autonomy solutions based on computer vision and neuromorphic computation for drones and other unmanned systems
HCFA	\$37,808,219	Other	China	Articulated Robots, Controllers	HCFA engages in the manufacturing and integration of industrial automation and robotics products.
Hummingdrone	Estimate	Other	Turkey	Drones	Hummingdrone provides cutting-edge autonomous drones and software solutions designed specifically for the solar energy industry.
IDEAOcean	Estimate	Seed	South Korea	Software	IDEAOcean is currently developing METHEUS, an AI-based software aimed at automatically designing mechanisms for the operation of robots and mechanical devices.
Matic	\$24,000,000	Series A	USA	Indoor Mobile Platforms	Matic provides AI-powered indoor robots for household cleaning.
May Mobility	\$105,000,000	Series D	USA	Autonomous Transportation Systems, Sensors / Sensing Systems, Software	May Mobility provides autonomous vehicle technology for commercial fleets.
Micromoo Medical Myactuator	Estimate \$1,097,393	Seed Other	China China	Surgical / Interventional Systems Actuators / Motors / Servos	Micromoo Medical manufactures robotic surgical systems for ophthalmic procedures. Myactuator develops robot actuators and control systems.
Nanjing Zhuling Technology	Estimate	Seed	China	Indoor Mobile Platforms	Zhuling Technology specializes in construction robotics systems and supporting hardware & technology solutions.
Pipedream Labs	\$9,427,169	Other	USA	Outdoor Mobile Platforms	Pipedream Labs provides a delivery solution using mobile robots, and an underground tunnel and tube system.
Raise Robotics	Estimate	Seed	USA	Collaborative Robots, Indoor Mobile Platforms	Raise Robotics builds robotic systems that assists workers with challenging tasks on construction sites
Redwing Labs	Estimate	Seed	India	Drones, Operator Services	Redwing Labs manufactures autonomous unmanned drones and operating systems for delivery operations.
SAFELOG	Estimate	Pre-Seed	Germany	Indoor Mobile Platforms, Other Industrial	SAFELOG provides intralogistics solutions with a variety of mobile robot offerings and picking systems.
Samudra Oceans	\$1,002,727	Pre-Seed	UK	Sensors / Sensing Systems, Software	Samudra Oceans is a robotics AI startup that offers robotic monitoring solutions for seaweed farming
Sensyn Robotics	\$14,942,512	Other	Japan	Drones, Operator Services, Data Acquisition / Processing / Management	Sensyn Robotics provides a drone based industrial inspection service.
sliQue Robotics	Estimate	Seed	USA	Indoor Mobile Platforms	sliQue Robotics develops mobile robots and other technologies for various commercial sectors.
Sorting Robotics	\$2,000,000	Other	USA	Collaborative Robots, Other Industrial	Sorting Robotics builds robotics and automation technology for cannabis and hemp manufacturers.
SUIND	\$1,193,732	Seed	Switzerland	Drones, Software, Operator Services	Suind provides an AI powered, drone based solution for real-time crop monitoring and treatment.
Swambotics AI	Estimate	Pre-Seed	USA	Outdoor Mobile Platforms	Swambotics AI provides autonomous, swarming, mobile robots for industry and defense.
Teal Drones	\$750,000	Other	USA	Drones, Software	Teal Drones produces unmanned aerial vehicle technology.
True Health	\$14,092,843	Series B	China	Surgical / Interventional Systems	True Health is a surgical robotics technology company.
Unchained Robotics	\$6,033,943	Seed	Germany	Collaborative Robots, Other Industrial	Unchained Robotics is a robotics reseller and provider of integrated automation platforms for small-to-medium manufacturers.
Virtuoso Surgical	\$1,800,000	Other	USA	Surgical / Interventional Systems	Virtuoso Surgical specializes develops endoscopic robotic tools for minimally invasive surgery.
XMACHINES	Estimate	Seed	India	Indoor Mobile Platforms, Outdoor Mobile Platforms	XMACHINES produces autonomous mobile robotics for a variety of indoor and outdoor applications.
