

## December 2023 Robotics Investments

Company Name	Amount	Type	Country	Tech-Prod-Services	Description
<a href="#">4AG Robotics</a>	Estimate	Other	Canada	Linear Robots, Gantry Robots	4AG Robotics produces an autonomous, vision-guided, mushroom harvesting robot.
<a href="#">Agtonomy</a>	\$ 22,500,000	Series A	United States	Sensors / Sensing Systems, Software	Agtonomy provides a hybrid autonomy and tele-assist platform for agricultural applications.
<a href="#">B-Robotics</a>	\$ 2,320,135	Other	South Korea	Indoor Mobile Platforms, RaaS	B-Robotics is a service robot firm that offers full-service, serving robot rentals.
<a href="#">basecamp vascular</a>	\$ 6,529,588	Series A	France	Surgical / Interventional Systems	basecamp vascular offers a robotic solution for endovascular navigation.
<a href="#">Boonray Technology</a>	\$ 14,012,471	Series B	China	Sensors / Sensing Systems, Software	Boonray Technology produces artificial intelligence-based technologies for autonomous driving and robotics solutions.
<a href="#">BotBuilt</a>	\$ 12,400,000	Seed	United States	Consulting / Engineering, Services - Other	BotBuilt is a services company that uses robotic systems and artificial intelligence solutions to simplify home construction.
<a href="#">Clodot</a>	\$ 8,458,223	Other	South Korea	Social / Entertainment Robots	Clodot is an information technology company providing robotics services.
<a href="#">CYNGN</a>	\$ 5,000,000	Other	United States	Indoor Mobile Platforms, Automated Guide Vehicles, Autonomous Forklifts	Cyngn specializes in autonomous vehicle technology tailored for industrial applications.
<a href="#">Drone Geofencing</a>	\$ 1,517,253	Seed	France	Software	Drone Geofencing develops applications for remote-controlled aeronautics and a solution to supervise fleets of drones from a control center.
<a href="#">FlightWin</a>	\$ 14,140,111	Series B	China	Drones, Software	FlightWin specializes in unmanned aircraft systems, flight control systems and navigation systems.
Fontan Robot	Estimate	Seed	China	Other Industrial	Fontan Robot is a provider of intelligent construction robotics solutions.
<a href="#">Gecko Robotics</a>	\$ 100,000,000	Series C	United States	Outdoor Mobile Platforms, Operator Services, Data Acquisition / Processing / Management	Gecko Robotics provides robotics and industrial inspection services.
<a href="#">German Bionic</a>	\$ 16,148,045	Series A	Germany	Exoskeletons	German Bionic develops exoskeleton technology that people can wear to augment their physical abilities.
<a href="#">GREENFIELD</a>	Estimate	Other	United States	Outdoor Mobile Platforms, Software	GreenFieldd develops mobile robots for agricultural applications including weeding, planting and fertilizing.
<a href="#">GreyOrange</a>	\$ 135,000,000	Series D	United States	Indoor Mobile Platforms, Software	GreyOrange develops software and mobile robots for the warehousing industry.
<a href="#">Instock</a>	\$ 3,200,000	Seed	United States	Indoor Mobile Platforms, Software	Instock offers a robotics-based system for ecommerce fulfillment operations.
<a href="#">Invert Robotics</a>	\$ 2,697,450	Other	The Netherlands	Outdoor Mobile Platforms, Operator Services, Data Acquisition / Processing / Management	Invert Robotics provides mobile robotics based industrial inspection services.

Nanjing Jingyao Intelligent Technology (King Young Tech)	\$ 14,126,608	Series A	China	Video / Vision / Imaging, Research / Consulting	Nanjing Jingyao Intelligent Technology (King Young Tech) is a machine vision and mobile robot developer, and provider of system integration services for robots and automation systems.
<a href="#">Kusa Technology</a>	Estimate	Seed	China	Autonomous Transportation Systems	Kusa Technology provides unmanned operation services for street cleaning robots.
<a href="#">Langhe Medical</a>	\$ 13,933,398	Series C	China	Surgical / Interventional Systems, Laboratory / Cleanroom	Langhe Medical produces robotics systems and other solutions for the early diagnosis and non-invasive interventional treatment of lung cancer.
Linebird	\$ 535,000	Other	United States	Data Acquisition / Processing / Management	Linebird provides drone-based automation solutions for utilities.
<a href="#">Mu Qin Zhi Neng</a>	Estimate	Other	China	Outdoor Mobile Platforms	Mu Qin Zhi Neng produces autonomous, mobile robots for agricultural operations.
<a href="#">Oak Heron Technology</a>	Estimate	Other	China	Outdoor Mobile Platforms	Oak Heron Technology specializes in the development of autonomous, mobile robots for agricultural operations.
<a href="#">OPiO</a>	\$ 900,000	Seed	United States	Laboratory / Cleanroom, RaaS	OPiO provides a robotic methadone dose assembly system as a service.
<a href="#">Oversonic Robotics</a>	Estimate	Other	Italy	Humanoids / Bipedes	Oversonic Robotics develops a cognitive humanoid robot designed to operate within the plastics and chemical industries, as well as the logistics sector.
<a href="#">PaintJet</a>	\$ 10,000,000	Series A	United States	Gantry Robots, Linear Robots	PaintJet is a robotics and material sciences company automating large-scale commercial and industrial painting.
<a href="#">Phlux Technologies</a>	\$ 75,000	Seed	United States	Sensors / Sensing Systems	Phlux Technologies develops three-dimensional sensing technology for robotics, industrial automation, and autonomous vehicles.
Qiaotian Intelligent	Estimate	Series A	China	End Effectors	Qiaotian Intelligent produces tool changers for industrial robots, along with other industrial equipment.
<a href="#">Rightbot</a>	\$ 6,250,000	Seed	United States	Articulated Robots, Sensors / Sensing Systems	Rightbot produces robotic solutions that automate the unloading and loading of floor loaded containers.
<a href="#">Scewo</a>	\$ 10,777,743	Series A	Switzerland	Lifestyle Enhancement	Scewo develops a stair-climbing wheelchair.
<a href="#">Sea Machines Robotics</a>	\$14,100,000	Other	USA	Sensors / Sensing Systems, Controllers	Sea Machines Robotics offers autonomous control and navigation systems for commercial boats and ships.
<a href="#">Seasony</a>	\$ 1,614,804	Seed	Denmark	Indoor Mobile Platforms, Linear Robots	Seasony produces robotics systems for vertical farming.
Senta Robot Technology	Estimate	Other	China	Articulated Robots	Senta Robot Technology is developing an AI-powered paint-spray robot.
<a href="#">Sentante</a>	\$ 6,569,762	Seed	Lithuania	Surgical / Interventional Systems	Sentante is a medical device company that develops robotic teleoperated systems for endovascular procedures.
<a href="#">Shield AI</a>	\$ 200,000,000	Other	United States	Software	Shield AI produces an AI and autonomy stack for aircraft.

<a href="#">SKYCORP Technologies</a>	\$ 328,343	Pre-Seed	Estonia	Drones	SKYCORP Technologies designs and manufactures hydrogen drones and accompanying infrastructure.
<a href="#">Skyline Robotics</a>	\$ 6,450,000	Seed	Israel	Articulated Robots	Skyline Robotics develops a cleaning system that automates building facade maintenance work.
<a href="#">SWARM Robotics</a>	Estimate	Pre-Seed	Saudi Arabia	Indoor Mobile Platforms, Automated Guide Vehicles	Swarm Robotics is a robotics software service provider focused on intralogistics optimization and automation using mobile robots and guided vehicles.
<a href="#">YardDrone</a>	\$ 800,000	Pre-Seed	India	Drones, Software	YardDrone Tech offers end-to-end drone solutions for a variety of industrial applications.
Zhi'an New Energy	\$ 13,941,945	Series A	China	Power Supplies	Zhi'an New Energy is a developer and manufacturer of smart batteries, charging equipment, and test equipment control technologies for robotics systems.
<a href="#">Zhiyuan Robotics</a>	\$ 84,781,687	Series A	China	Humanoids / Bipedes, Software	Zhiyuan Robotics produces general-purpose, intelligent, humanoid robots, and other products.
