

February 2024 Robotics Investments

Company Name	Amount	Type	Country	Tech-Prod-Services	Description
Aerix Systems	\$1,732,096	Seed	France	Drones	Aerix Systems develops drone systems featuring a gyroscope-based, omnidirectional propulsion system.
AICA SA	Estimate	Other	Switzerland	Development Tools / SDKs / Libraries, Software	AICA offer an AI based software development platform for robot programming that gives systems the ability to learn and adapt autonomously to changes.
Airspection	\$125,986	Grant	UK	Operator Services - UAVs, Drones	Airspection provides drone-based remote inspections services.
Alias Robotics	Estimate	Seed	Spain	Software	Alias Robotics offers a cybersecurity solution that protects robots against malware.
Apparel Robotics	\$100,000	Grant	USA	Grippers, Articulated Robots, Software	Apparel Robotics develops hardware and software technologies for apparel manufacturing.
Borobo	Estimate	Other	France	Outdoor Mobile Platforms	Borobo develops an autonomous mobile robotic platform for outdoor transportation.
Brain Corporation	\$32,000,000	Other	USA	Software	Brain Corp develops core autonomy technology for the robotics industry.
Chaoneng Robot	Estimate	Other	China	Indoor Mobile Platforms	Chaoneng Robot produces a variety robotics systems for healthcare and hospitality applications.
Cuebus	\$1,537,146	Series B	Japan	Automated Storage & Retrieval Systems, Indoor Mobile Platforms	Cuebus provides three-dimensional robot warehouse systems.
Daoshan Intelligence	\$467,433	Other	China	Drones, Outdoor Mobile Platforms	Daoshan Intelligence is a manufacturer of robots and drones for surveying and mapping operations.
DH-Robotics	Estimate	Series C	China	Grippers	DH-Robotics provides a variety of intelligent grasping and precision motion control solutions for customers in various industries.
Figure	\$675,000,000	Series B	USA	Humanoids / Bipeds	Figure Robotics is developing a multi-purpose, humanoid robot.
Flexxbotics	Estimate	Other	USA	Software	Flexxbotics provides autonomous process control software as a service (SaaS) that connects and coordinates robots with automation equipment, IT systems and people.
Flybotix	Estimate	Other	Switzerland	Drones	Flybotix develops a collision tolerant drone for in-structure and indoor inspection.
Fusionride	Estimate	Seed	China	Sensors / Sensing Systems, Microcontrollers / Microprocessors / SoC	Fusionride offers sensing solutions and perception technologies for ADAS and autonomous transportation.
Gopher Motion	\$100,000	Grant	USA	Outdoor Mobile Platforms	Gopher Motion develops autonomous mobile robots for last-mile delivery of goods.
Industrial Robotic Solutions	\$457,686	Grant	UK	Grippers	Industrial Robotic Solutions offers robotic gripping solutions for foodstuffs.
Jaia Robotics	\$1,179,824	Seed	USA	Unmanned Underwater Vehicles	Jaia Robotics is a provider of autonomous subsurface marine vehicles.
Keybotic	\$6,500	Grant	Spain	Quadrupeds	Keybotic is a manufacturer of autonomous four-legged robots for monitoring, inspection, and mapping of industrial environments.
Kingdom Technologies	\$1,775,358	Other	UK	Outdoor Mobile Platforms	Kingdom builds robotic lawn mowers.
Mapless AI	\$100,000	Grant	USA	Software, Autonomous Transportation Systems	Mapless AI develops technology that enables full operational remote control of existing fleet vehicles.
MMI	\$110,000,000	Series C	Italy	Surgical / Interventional Systems	MMI develops robotic technology for soft tissue open surgery.
Monumental	\$24,930,608	Seed	The Netherlands	Articulated Robots	Monumental develops bricklaying robots for the construction industry.
Nauticus Robotics	\$12,000,000	Other	USA	Unmanned Underwater Vehicles, Consulting / Engineering	Nauticus Robotics provides unmanned underwater vehicles and engineering services.
Nuro	Estimate	Other	USA	Sensors / Sensing Systems, Software	Nuro develops driverless transportation software and hardware technologies, and operates a fleet of electric and autonomous vehicles.
Pierce Aerospace	\$1,080,000	Other	USA	Electronics, Networking / Connectivity	Pierce Aerospace offers Remote ID technologies and data services for unmanned aircraft.
Recoqni	\$102,000,000	Series C	USA	Microcontrollers / Microprocessors / SoC, Software	Recoqni offers low latency and low power, vision-based perception processing for autonomous driving platforms.
Revolute Robotics	\$50,000	Other	USA	Drones, Outdoor Mobile Platforms	Revolute Robotics builds hybrid flying and driving robots that collect inspection and surveillance data.
RigiTech	Estimate	Other	Switzerland	Drones, Operator Services - UAVs	Rigi Technologies provides drone delivery services.
Rivelin Robotics	\$675,888	Grant	UK	Articulated Robots, Software	Rivelin offers AI powered robotic work cells for metal fabrication operations.
RobCo	\$42,500,000	Series B	Germany	Collaborative Robots	Robcon offers a modular, collaborative robotics platform that is available for sale or as a service.
RoBoa	Estimate	Grant	Switzerland	Snake Robotics	RoBoa develops snake-like robots for confined space exploration.
ROBOS	\$5,260,335	Series A	Korea	Articulated Robots, Other Industrial	ROBOS develops robot technology for meat processing automation.
Rosiwit	Estimate	Seed	China	Indoor Mobile Platforms	Rosiwit develops autonomous, mobile floor cleaning robots.
Sazhi Intelligence (SAGE Intelligent)	\$14,000,000	Series A	China	Indoor Mobile Platforms, Indoor Mobile Manipulation Platforms	SAGE Intelligent is provider of autonomous mobile robots designed for multiple commercial and industrial applications.
Sea Machines Robotics	\$12,000,000	Other	USA	Sensors / Sensing Systems, Software	Sea Machines Robotics builds autonomous control and navigation systems for the commercial marine and boating industries.
Shield AI	Estimate	Series A	USA	Software	Shield AI produces an AI and autonomy stack for aircraft.
SIMPL Automation	\$100,000	Grant	USA	Automated Storage & Retrieval Systems	SIMPL Automation provides warehousing automation solutions.
Smart Farm Robotix	\$2,600,039	Grant	Bulgaria	Outdoor Mobile Platforms	Smart Farm Robotix manufactures mobile robots for agricultural applications such as weeding and herbicide dispersal.
Starship Technologies	\$90,000,000	Other	USA	Outdoor Mobile Platforms	Starship Technologies offers self-driving delivery robots.

Symbotic	\$202,500,000	Other	USA	Indoor Mobile Platforms, Articulated Robots	Symbotic provides robotic automation solutions for warehouses and distribution centers.
Taixi Intelligent	Estimate	Seed	China	Exoskeletons, Humanoids / Bipeds	Taixi Intelligent develops exoskeletons and bipedal robots.
Uhnder	\$50,000,000	Series D	USA	Microcontrollers / Microprocessors / SoC	Uhnder develops radar-on-chip for automotive ADAS systems and autonomous transportation.
Unitree Robotics	\$140,682,591	Series B	China	Humanoids / Bipeds, Quadrupeds, Sensors / Sensing Systems	Unitree Robotics produces biped and quadrupedal robots, along with a variety of enabling technologies.
Unlimited Robotics	Estimate	Other	Israel	Development Tools / SDKs / Libraries, Indoor Mobile Platforms	Unlimited Robotics provides a hardware platform and software development tools for developing robotics systems.
VECROS	\$250,000	Other	India	Drones, Sensors / Sensing Systems	VECROS provides industrial inspections at scale using computer vision and autonomous aerial systems.
Voidless	\$2,364,231	Seed	Italy	Articulated Robots, Linear Robots	Voidless provides robotic packaging systems.
Wynter Robotics	Estimate	Other	UK	Outdoor Mobile Platforms	Wynter Robotics develops mobile robotic solutions for the construction sector, including measurement, bricklaying, and wood frame assembly.
Yard Robotics	\$100,000	Grant	USA	Outdoor Mobile Platforms	Yard Robotics offers lawn care services by powered by robots and humans.
Yunchuang Zhixing	Estimate	Series A	China	Autonomous Transportation Systems	Yunchuang Zhixing produces unmanned, street cleaning systems.
Zelos	\$100,000,000	Series A	China	Autonomous Transportation Systems	Zelos produces and AI-powered, autonomous transportation platform.
